RICHLAND CENTER 2024 WATER MAIN FLUSHING

The City of Richland Center Water Utility will be flushing water mains on the following mornings starting at 12:01 a.m. and continuing into the daytime, as shown on the map above. Storms or other unexpected circumstances may extend or postpone the time. The entire water system may experience rusty water and/or reduced water pressure during the flushing week. The water is safe to drink but could discolor clothes washings.
