OPEN RECORDS REQUESTS

Wisconsin Statute 19.31- Declaration of Policy. In recognition of the fact that a representative government is dependent upon an informed electorate, it is declared to be the public policy of this state that all persons are entitled to the greatest possible information regarding the affairs of government and the official acts of those officers and employees who represent them. Further, providing persons with such information is declared to be an essential function of a representative government and an integral part of the routine duties of officers and employees whose responsibility it is to provide such information. To that end, ss.19.32 to 19.37 shall be construed in every instance with a presumption of complete public access, consistent with the conduct of public business.
