Yard Waste and Leaf Pickup Guidelines

YARD WASTE

- ✓Acceptable items: leaves, branches/brush, and garden waste only.
- ✓Pickup occurs once a month from April to September; refer to the calendar for specific dates.
- ✓Yard waste must not be placed in plastic bags; use biodegradable bags or leave it in open containers.
- ✓Place yard waste on top of the curb (not in the gutter) by 7:00 AM on the Monday of collection week.
- ✓Only one collection trip will be made per neighborhood from Monday to Wednesday; if your area has been serviced, they will not return until the following month.

Additional Notes:

- If yard waste is in a container, it will be emptied into the truck, and the container will be left at the curb.
- If you miss the pickup, you can take your yard waste to the landfill's compost area at any time (see details below).

LEAF PICKUP

- ✓From mid-October to mid-November, the city will vacuum leaves daily from different sections of town.
- ✓The entire city will not be covered in one day; each section will be serviced multiple times, but not on the same day or week.
- ✓If the vacuum truck has already passed, it will return after completing other areas.

During Leaf Collection:

- Rake leaves into the gutter for vacuuming and ensure there are no sticks mixed in, as they can damage the equipment.
- Do not park on or directly in front of your leaves, as this will hinder vacuum access.

Note: Frozen leaves can clog and damage the vacuum.

ORGANIC/YARD WASTE RECYCLING SITE

- The city's organic/yard waste recycling site is located off County A, to the right of the road leading to the landfill (before the landfill gate).
- This site is accessible at any time for city residents to dispose of brush, leaves, grass clippings, and garden organic waste.
- Containers must be emptied and removed, unless using biodegradable bags.

Prohibited Items: *No plastic bags, construction materials, concrete, rock, metal, or household waste is allowed in this area!*
